INVENTORY OF AMERICAN SACRED TUNEBOOKS THROUGH 1820

completed 21 May 2014 by Nym Cooke

The books are numbered, and there is an index of previous owners at the end of the inventory. In the transcriptions of musical phrases, numerals equal scale degrees, with "U" meaning that the melody goes into the next octave up, and "D" meaning that the melody goes into the next octave down. "2-5" means that a slur is over these two notes; "7t7" means that a tie links these two notes; "(2-3)" means that these two notes are grace notes; and "/" signifies a new phrase (= a new line of text). "L.M.," "S.M.," etc. refer to the meter of the text (L.M. is four lines of eight syllables each, for example). Following hymnological convention, the titles of sacred-texted tunes and anthems are printed in large and small capital letters. Another possible owner's name ("O'Connell"?) appears just above the label pasted inside the front cover.
